#### No Conflicts of Interests

no financial conflict of interest.

Acknowledge I am a MAID provider

My opinions may show a bias towards

my belief in supporting MAID

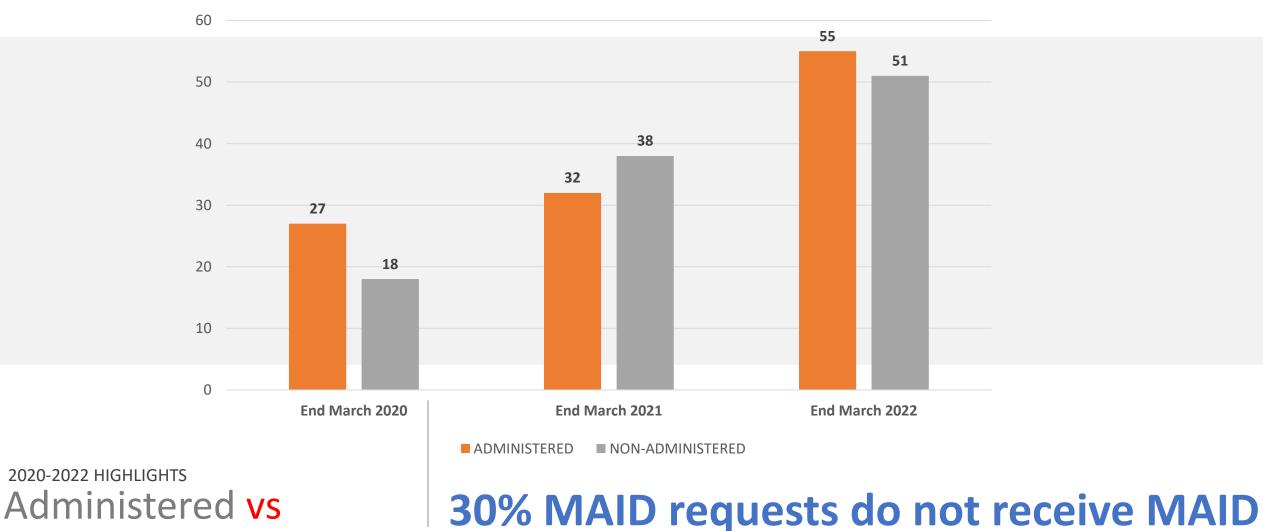

#### Objectives

- Share the experience of MAID from provider and recipient perspective.
- Challenge yourself to rethink your perspective on MAID.
- What can you do as non-MAID provider physician?

#### FEW MAID stats – 2020

- 7,596 cases of MAID reported in Canada, accounting for 2.5 % of all deaths in Canada that year.
- 83% received palliative care
   (of those who did not receive PC, 88.5% were offered it and declined)
- 90% of recipients requiring disability support were reported as having received these services.
- 47% received MAID in private residence.

NON-Administered MAiD

# No one wants to die, but once it is inevitable it can be a beautiful part of the circle of life.

Dr Liz MacNamara

Where do you see your role, when a patient's end of life (EOL) is near?

## Medical Assistance in Dying - an EOL option

- Most people do not choose MAID for their EOL scenario.
- MAID is offered in conjunction with palliative care, and other comfort measures.
- Can be received in comfort and privacy of home
- Provides a peaceful, respectful death, surrounded by loved ones.

- Brings dignity to death
- A celebration of life

## Why do I provide MAID?

• Return to the humanity of medicine.

Listen, don't judge

Maid is both the hardest part of my practice,
 and at the same time most rewarding.

• Gratitude from patients and family keeps me going.

"Thank you for doing the work you do.
Please don't stop"

# Role of non-MAID providers

#### No HCW is ever required to provide MAID.

95% of Physicians do not provide MAID.

# It is the law, and a doctor's duty to refer anyone who requests MAID to be evaluated by a MAID assessor/provider

Referring a patient does not mean they will receive MAID.

Even if you are not sure about eligibility, refer the the patient for evaluation.
